NGO VAN TU CUONG

SOFTWARE ENGINEER

profile

—— PROFILE ——

I have been experience many programming languages, but I would love writer mobile app especially IOS app. My goal are become senior IOS developers. As an organized and highly creative individual, I challenges of working within a dynamic and fast paced working environment. I sense that one person eager to learning and responsibility person and found myself a friendly person. The biggest disadvantage is the expert knowledge and soft skills. But I want to improve better myself about skill development.
